Beautification committee meeting minutes:

David Guzman opened meeting at 6:40pm with one stakeholder in attendance. Brad Klimovitch present from the Mission Hills Neighborhood Council.

Stakeholder expressed his concern to David about the short meeting notice via email blast and community outreach. The stakeholder in attendance questioned Davids commitment and plan for areas to be targeted for a community cleanup project. David had no specific area on his agenda to offer an answer for the stakeholder. The stakeholder made some recommendations to locate overgrown vegetation in his own neighborhood especially around areas where registered sex offenders reside. David asked the stakeholder for a more specific list of areas to focus on and promised another meeting to reorganize the community clean up within two weeks.

Meeting was adjourned at 7:15pm
